

Required Motor Information to determine the correct Motor Matching Gearhead- Input-Flange

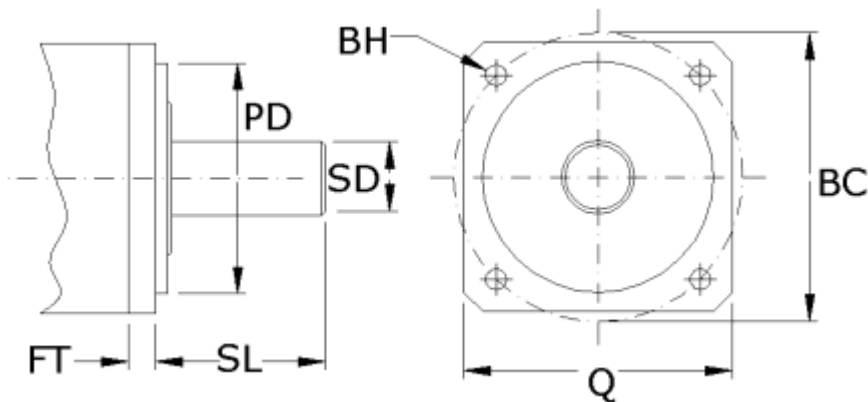

Alt.1)

Please provide motor brand and type, (preferably with link to data sheets)

Note: sometimes a single letter in the type-code could mean metric or inch version

Alt. 2)

Submit the motor dimensions SL, SD, PD, BC, BH (see below)

Required DIMENSION Information :

Q-Motor Flange square / SD-Shaft Diameter / SL-Shaft Length / PD-Pilot Diameter
/ BC-Bolt Circle Diameter/ BH-Bolt Size (Bolt Thread) / FT-Flange Thickness

Required Motor Dimension Data		
Motor Flange type IEC B5 or NEMA / IEC B14 or NEMA C		
SD Motor shaft diameter		
PD Motor flange plot diameter		
BH Mounting hole diameter (thread dim if B14 or NEMA C-face motor)		
BC Bolt circle diameter		
SL Motor shaft length		
FT Flange thickness		
N Number of mounting bolts		
Q3 Motor flange square
