

NEUGART difference - features not found in other gearheads

Up to 5 planet gears

Competitors

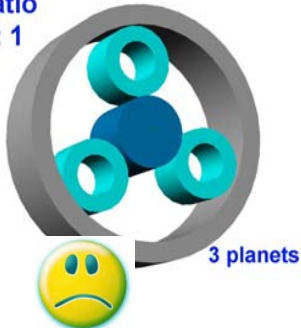

Competitors product design has only 3 planetary-gears

NEUGART

E-series gearheads and some of the –HP-series have more than 3 planet gears in the high torque output stage

Neugart advantage

Higher load ability, highest torque density, smaller physical size Neugart unit can replace / outperform larger size competitors unit-, increased stiffness, reduced weight, increased unit life and reliability
